

PEVALIND

The active substance-rich, high-quality **SKIN CARE LOTION** for the care and regeneration of damaged skin.

PROPERTIES

PEVALIND is a high-quality Skin Care Lotion rich in active ingredients for application after light to severe skin stress.

- ✓ is light fatty, easily spread on the skin and is absorbed very quickly
- ✓ with consistent application, it can promote the regeneration of affected skin areas. The skin is cared for and negative environmental influences can be

COMPOSITION

PEVALIND consists of selected, high-quality raw materials and a selection of different active ingredients:

- natural α -Bisabolol, an antiphlogistic active ingredient from chamomile. This ingredient can counteract inflammation of the skin*
- d-panthenol is a provitamin of pantothenic acid (Vit. B5). D-panthenol promotes wound healing, stimulates epithelisation, cell division and skin pigment build-up*
- keratin, of natural origin, is a high-quality protective protein for the skin. It keeps the skin moist and maintains skin elasticity*
- natural free vitamin E (α -Tocopherol), with high biological activity, reduces skin damage by free radicals and thus delays the skin ageing process*
- vitamin A promotes the enzyme activity of the skin and collagen formation. It also supports the regeneration of UV-aged skin*

- contains natural, skin-caring almond oil
- special moisturisers regulate the moisture content of the skin and should prevent it from drying out
- the use of these high-quality ingredients makes PEVALIND an ideal skin care product of extraordinary quality
- is pH-neutral to skin
- is silicon-free
- is dermatologically tested with a rating of „very good“
- has proven itself in practice based on many years of experience.

APPLICATION

Make sure your skin is clean and dry after completing work and then rub in **PEVALIND** thoroughly.

PEVALIND is suitable for all-over body use. Regular application is necessary to achieve a sustainable effect.

PRODUCT DESCRIPTION

PEVALIND is a white to light-yellow oil-in-water lotion, pleasantly scented.

pH-value: 4.6 – 5.2

Density: approx. 0.93 - 1 g / cm³ (20 °C)

*according to literature

LEGAL REGULATIONS

PEVALIND is subject to the EU Cosmetics Regulation and in Germany to the Food, Consumer Goods and Feed Code (LFGB).

All our cosmetic products are manufactured according to GMP (Good Manufacturing Practice) and undergo microbial quality control.

STORAGE INFORMATION

PEVALIND can be stored in closed original containers at room temperature for at least 24 months.

SKIN CARE TIPS

In the unavoidable handling of harmful substances, a suitable skin protection product should be used to prevent skin damage before starting work (e.g. **PEVAPERM**, the generally applicable Skin Protection Lotion).

Depending on the type of soiling, a suitable skin cleansing product should be applied (e.g. **PEVASTAR** for medium to heavy soiling, or **PEVA PREMIUM** for extreme soiling).

FURTHER INFORMATION

Group leaflets, specifications and dermatological reports are available on request. Certificate: The product passed dermatological-allergological tests carried out under medical supervision with the rating „very good“.
