

# Neutralise+

## Odour Neutraliser & Eliminator Hazard Free

Aona Neutralise+ is a concentrated Odour Eliminator, designed to Capture, Remove, and Eliminate foul odours, leaving a fresh linen fragrance.

It is particularly effective at removing odours created by urine, faeces, vomit, milk, tobacco, and body odours.

- Non-Toxic, Hazard Free, 100% biodegradable formulation
- Alcohol & Quat Free
- Contains Natural, Plant-Based Biocide
- Manufactured with Renewable Energy

Aona Neutralise+ can also be used as a multi-surface cleaner and disinfectant; it carries the accreditation of BS EN 1276 (bactericidal efficacy) and BS EN 14476 (virucidal efficacy) at a dilution of 1-20. It is proven to eliminate viruses such as Coronavirus.

Suitable for use in many sectors such as Healthcare, Education, Leisure, and public building, Aona Neutralise+ is non-toxic and hazard free, Aona Neutralise+ will not only create cleaner, fresher, and safer environments, it will also lower the associated risk of cleaning these spaces with fewer cleaning products.

Aona Neutralise+ is 100% biodegradable and incorporates the use of recycled plastic. It is produced in the UK's most ecological manufacturing facility which uses renewable energy and creates less effluent as all chemical waste is pre-cleaned on site with our unique bioreactor.
